Julie, room 361-A is the GC/MS room. They may want to check out room 362 which has the ductwork for the hoods that aren't working. I will let the chemists know that someone will be in early Tuesday to check out the vents. CBS

Yes, just knock on the door and someone will let you in. Chuck please advise the chemists in the area to not have samples out on the bench at that time.

Julie

Hi Julie  
Can we get into 361A (Drug lab) to look at the duct work for the fume hood on Tuesday around 7:00 am?  
Thanks Scott
